

MOTION BY SUPERVISOR HILDA L. SOLIS

September 8, 2015

Each year, the American Society of Civil Engineers (ASCE) holds its National Concrete Canoe Competition which provides students with a practical application of engineering principles they learn in the classroom, along with important team and project management skills. The event challenges the students' knowledge, creativity and stamina, while showcasing the versatility and durability of concrete as a building material. California State University Los Angeles' (CSULA) Civil Engineering Department will compete in the national competition.

I, THEREFORE, MOVE that the Board of Supervisors hereby instruct the Director of the Department of Parks and Recreation to waive the fees for 3 canoe launchings and the parking fees of \$10.00 per car for four cars every Friday, starting November 20, 2015 and ending on April 2016 for the CSULA Civil Engineering Department at Santa Fe Dam, excluding the cost of liability insurance.
